Order Form

With this I order the following book on account:			
Copies:	Language:	Title:	EUR
	<input type="checkbox"/> German	Warnke/Scherer/Enderle Operational Modes of Agitator Bead Mills	33,-*
	<input type="checkbox"/> English		
Company:			
Name:			
Street:			
ZIP/City:			
Country:			
Tel./Fax:			
P.O. #			

Date/Place:	Signature:

* transport costs included

The authors Carsten Warnke, Georg Scherer and Udo Enderle created a manual about the different modes of operation of agitator bead mills, which is divided into three chapters. It contains a detailed theoretical part about the modulation and calculation of residence time spectra. An other part deals with the practical transformation of the different operation modes. Finally, the necessary machine technology is imparted to the reader.
